

# Graduate Program 2021

Dedicated to young and bright IT people who are eager to develop and contribute to EG's strategy of growth in Global Delivery

Let's go further

# Key Facts

Our goal is to attract young talents and support their technical and personal development thanks to intensive on-the job training combined with technical insight, workshops, mentoring and participation in technical projects from day one.

We want our graduates to become an integrated part of our teams and grow in various roles at EG in the future.
